SEWP VI:

Transition Updates and Frequently Asked Questions (FAQs)

SEWP VI Transition Updates:

In preparation of the anticipated start date of SEWP VI, on *Nov 1, 2026*, the SEWP Program Office will be transitioning the website, applications, and internal processes to reflect the new contract. Beginning on *Oct 1, 2026*, the SEWP VI website will be available.

SEWP will be rolling out new and improved functionalities throughout the first year of the SEWP VI contracts.

Key areas that are affected include:

- **Scope –** The scope of SEWP will include both the traditional ITC/AV (Information Technology, Communication and Audio Visual) product solutions primarily in Category A along with a full suite of ITC/AV services in Categories B and C.
- **NAICS Codes –** NAICS codes will now be defined at the order level. Any valid in-scope NAICS code may be used.
- **Set-Asides –** All three Categories will allow for any form of small business set-aside at the order level.
- **Contract Types –** SEWP VI will allow for multiple Contract Types: *Firm Fixed Price*; *Time and Material*; *Labor Hour*; *Fixed Price Award Fee*; *Fixed Price Incentive Fee*; *Fixed Price Economic Price Adjustment*; or any hybrid of commercial contract types for orders.
- **SEWP Marketplace –** The ***SEWP Marketplace*** will be defined as the entirety of SEWP, including all Contract Holder & Procurement information on our website, pricing information within our SEWP Online Catalog, all supporting applications as well as the customer service expertise offered.
- **SEWP Online Catalog –** The ***SEWP Online Catalog*** will be defined as the entirety of the SEWP database of record. Customers can search the Online Catalog by part number, item keyword, or provider. They can browse the Online Catalog for market research purposes, for micro-purchases or to request quotes from the **Contract Holders**. This new Online Catalog will have **all available CLINs and Storefronts and BPAs** available to customers.

- **Strategic Storefronts and Blanket Purchase Agreements/BPAs –** The ***Strategic Storefronts and BPAs*** will provide fast access to strategically-sourced products, services, and solutions. Agencies will be able to create Storefronts and/or BPAs and are easily accessible in the SEWP Online Catalog (post-login).
- **Non-manufacturer rule (NMR) –** SEWP VI will operate under specific non-manufacturer (NMR) waivers that cover most, but not all, products in Category A. Information as to which product categories are not covered by the NMR waiver will be provided on the SEWP VI website.
- **Number of Contract Holders –** It is anticipated that the number of Contract Holders will increase significantly in SEWP VI. The SEWP Program Office is developing tools and increasing staffing to assist customers in navigating the depth and breadth of Contract Holders and capabilities.
- **Quote Request Tool (QRT) –** The central SEWP Application will be revamped to account for the changes noted above and improve the overall customer experience.
- **SEWP Website –** The SEWP website will be redesigned to improve information flow and navigation.

Below is a list of SEWP Frequently Asked Questions (FAQs) that will help with transition from SEWP V to VI.

Can my Delivery Order / Lease / Purchase Agreement extend beyond the Contract end date of SEWP V?

Yes, provided that the Delivery Order/Lease/ Purchase agreement was awarded prior to the end of the SEWP V ordering period. Options and modifications related to SEWP V orders should continue to be sent to **sewporders@sewp.nasa.gov**. All options and modifications must be directly related to a valid SEWP V order. The original SEWP V order should indicate the length of time such modifications are to be allowed. The SEWP Program Management Office (PMO) will continue to accept such modifications for up to five years after the end of the contracts. This applies to Delivery Orders with Options (DOWOs), Marketplaces, and Blanket Purchase Agreements (BPAs).

Can quotes acquired during SEWP V be used after SEWP VI launches, seeing as it's the same Contract Holder available on SEWP VI?

No. All quotes received from SEWP V Contract Holders are valid only through the end of SEWP V. For an order to be valid after SEWP V expires, a new quote will need to be solicited from SEWP VI Contract Holders, and the order will then be issued again under the SEWP VI Contract Holder selected.

Will there be any changes that affect the way I use the SEWP tools when SEWP VI launches?

SEWP VI will have several major changes both in function and application, but the general process for requesting quotes and submitting orders will remain similar, as will the general concepts that form the SEWP framework. SEWP Customer Service staff will be available to assist Government customers with those changes. Please contact the SEWP Helpdesk by calling (301) 286-1478 or emailing help@sewp.nasa.gov for assistance.

Please also note that SEWP will be rolling out new and improved functionalities throughout the first year of SEWP VI.

When will I have access to SEWP VI Contract Holder information?

A list of the SEWP VI awardees is currently available on the SEWP homepage.
On October 1, 2026, the SEWP website will be updated to provide basic SEWP VI information. All relevant information, including company names, groups, points of contact, contract numbers, and contracts will be provided as Contract Holders are on-boarded.

When can I submit SEWP VI RFQs?

November 1, 2026, is the anticipated start date for SEWP VI request submissions.

How does the SEWP VI Contract launch on the anticipated date of November 1, 2026, impact my submission of modifications from a base order started during SEWP V?

Modifications of orders submitted during SEWP V may extend up to five years beyond the end of the SEWP V Contract.

Can I continue to use my established SEWP V Catalog / Marketplace after SEWP V expires?

All Catalogs/Marketplaces will end with the expiration of SEWP V. Orders placed under the Catalog/Marketplace may have option years exercised for up to five years. Subsequent modifications can be issued against the base year that typically exercises and funds the options if there are no substantive changes made to the initial base-year Delivery Order. At the Agency's request, the SEWP Program Management Office (PMO) will assist in using the existing SEWP V Marketplace objective criteria to expeditiously create a new SEWP VI Storefront. A SEWP VI Storefront has similar overall capabilities to the SEWP V Catalog/Marketplace concept, but there are differences that will require a discussion with the SEWP Storefront team.

Can I still find SEWP V info on your website? (e.g., Questions regarding a specific contract?

Yes, once SEWP VI begins on the anticipated date of November 1, 2026, the general SEWP website will be updated and will contain a link to access SEWP V content.

Will I have access to Request for Quotes (RFQs) and quotes placed prior to the anticipated date of November 1, 2026?

After the expiration of SEWP V, a *read-only* version of the SEWP V Quote Request Tool (QRT) will provide access to previously created RFQs.

What is the last date I can submit my order on SEWP V?

All SEWP V orders must be signed and dated no later than midnight on the last effective date of SEWP V. SEWP V orders may be sent to the SEWP Program Management Office (PMO) at sewporders@sewp.nasa.gov after the expiration of SEWP V, but they will only be processed if their award date is prior to the expiration date.

When can my SEWP V Request for Quote (RFQ) close?

All SEWP V RFQs must close by midnight on the last effective date of the SEWP V Contract.
