

NASA SEWP

A Recommended Choice
for IT Acquisitions

“I have been very clear to our employees that if an interagency provider, such as NASA’s [SEWP], is the most effective way to buy the goods and services, that’s the way to go.”

- Shay Assad, Director, Defense Procurement and Acquisition Policy
In an interview with *Government Executive Magazine*
April 24, 2007

“The communications process is wonderful. People that I have to work with, one on one sometimes have been just outstanding to work with. They bend over backwards, anything you need, both on the SEWP side and on the vendor side.”

- Government Customer

Speed, Flexibility, and Value:
NASA SEWP helps DoD Agencies
“Do IT Right”

SEWP

A provider of IT Solutions for the DoD

For more than 15 years, NASA has been an Assisting Agency to the Department of Defense, providing IT products from a wide variety of large and small contract holders through the SEWP contract vehicle. During this time, SEWP has consistently proven itself to be the contract vehicle of choice, providing premier customer service with the most up-to-date technology.

Today, DoD encourages the use of OMB-authorized Government Wide Acquisition Contracts (GWACs), such as SEWP, when they have the best method of procurement to meet DOD requirements.

SEWP gives DoD easy access to what's needed:

- Nearly a million unique IT products from 2,000+ manufacturers
- 38 pre-competed contract holders, of which 21 are to small business (6SDVOSB's)
- Several non-competed 8(a) set-aside contracts

SEWP assists DoD with purchasing compliance by:

- Accepting orders only through your procurement organization, according to your procedures, terms, and conditions
- Assuring scope compliance through contract and order review processes
- Making it easy to meet small business goals
- Providing FREE on-site Pentagon-mandated* training highlighting effective and proper use of SEWP contracts

* issued March 16, 2007

SEWP streamlines DoD IT purchasing

Find what you need on SEWP:

- High-end, state-of-the-art IT hardware and software products and solutions, including servers, storage systems, security products, and more!
- Installation, training, maintenance, warranties, and initial support for the solutions you purchase
- Product offerings updated within hours

Save time by using our personalized online tools to quickly:

- Search for product, manufacturer, and pricing information
- Conduct market research RFI's and submit RFQs
- Track orders online
- Retrieve order history—including previous quotes

Save money:

- Pre-competed and pre-negotiated contracts
- 38 contract holders ensure fair and reasonable pricing
- Lowest fee structure of any GWAC

The current SEWP surcharge is just 0.60%, capped at \$10,000 per transaction. SEWP is the only product GWAC with a fee cap.

Learn to “Do IT Right”

The SEWP Program Office provides two training options that are designed to meet your educational needs as well as fit within your schedule.

On-site personalized training:

SEWP professionals travel across the country offering free on-site training at military installations and DoD facilities. The on-site training provides in-depth knowledge about the SEWP contracts, best practices for utilizing them, and a web-demonstration to ensure attendees can leave the room and start using the contract immediately. Contact them at events@sewp.nasa.gov to arrange for a visit. SEWP also provides training courses at major government conferences throughout the year—be sure to check the online calendar on the SEWP website for an up-to-date schedule of upcoming events. Once you complete the in-person training you will receive a training certificate representing two Continuous Learning Points (CLP).

Online training:

Web-based video training is available as well, providing temporary DoD authorization to use SEWP until on-site training is provided. The video training provides the basics to best utilize the SEWP contract vehicle. Other online resources include FAQs and information pages, which can be found on the SEWP website.

DoD IG recommends training:

The DoD IG, in collaboration with the NASA IG, recently completed an audit of DoD procurements made through NASA SEWP. DoD IG recommends DoD users take the maximum advantage of the free on-site training offered by NASA and to routinely utilize SEWP's online RFQ tool. More information about the mandate is available at:

<http://www.sewp.nasa.gov/dod/info.shtml>.
